DCPAP

Delaware Child Psychiatry Access Program

*We believe in helping
primary care providers
meet the needs of children
with behavioral health concerns*

WHAT IS DCPAP?

DCPAP SERVICES

OTHER DCPAP SERVICES

DCPAP also helps practitioners refer their patients for appropriate behavioral health services, and identifying other behavioral health resources for their patients ages birth to 21.

Register your pediatric or family practice today!

(302)-513-0929

Text or Call

8:00 AM – 5:00 PM M - F

Through a grant from the Health Resources and Services Administration, the Delaware Children's Department has developed the Delaware Child Psychiatry Access Program that gives pediatric primary practitioners access to free psychiatric tele-consultation and training to improve and expedite treatment for their patients.

DCPAP Provides

- Pediatricians
- Family Physicians
- Advanced Nurse Practitioners
- Physician Assistants

with direct psychiatric consultation to provide behavioral health treatment within your own practice.

It takes just one call or e-mail to reach out and register your practice.

After that, call or text the access number during day time hours to request resources or contact by a child and adolescent psychiatrist to discuss your patient with mild to moderate mental health issues.

302-513-0929

TEXT OR CALL!

*Stop child abuse - call the Report Line at 1-800-292-9582
Child Priority Response Hotline: 1-800-969-HELP (4357)*

The Goals of the Project Include:

- ♥ Improve pediatric primary access to psychiatric consultation;
- ♥ Provide free training and technical support to enable primary care providers to better identify, diagnose, and treat behavioral health conditions;
- ♥ Improve primary care practitioners' access to resources and referral services.

This program is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) as part of an award totaling \$2,225,000 with 20% financed with non-governmental sources. The contents are those of the author(s) and do not necessarily represent the official views of, nor an endorsement, by HRSA, HHS, or the U.S. Government.
