Consultation Services for
Native American Youth
and Their Families**

CA Area IHS Native American SmartCare

CA Area IHS Native American SmartCare understands that primary care providers can be an important resource for families facing behavioral health challenges.

The SmartCare Clinical Team is here to support and guide Primary Care Providers by offering psychiatric and behavioral health consultation.

Our “Ready for Health” phone service for parents provides guidance in accessing helpful community resources.

Program Description

SmartCare provides real time access for psychiatric/behavioral health consultation for clinicians and clinic staff serving youth and parents.

SmartCare offers consultation services to help providers in:

- **Assessment and Intervention**
- **Recommendations for Psychotropic Medication, When Indicated**
- **Connecting Patients with Behavioral Health Community Resources in Their Area**

Our multidisciplinary clinical team includes Psychiatrists and other Behavioral Health Specialists.

SmartCare services are funded by the California Area Indian Health Service.

SmartCare services are free of charge to providers and patients.

Honored to be working with you from Kumeyaay land!
